**NALCOR ENERGY MARKETING CORPORATION**  
**NOTES TO CONDENSED INTERIM FINANCIAL STATEMENTS (Unaudited)**

---

**1. DESCRIPTION OF BUSINESS**

Nalcor Energy Marketing Corporation (Energy Marketing) was formed under the laws of the Province of Newfoundland and Labrador (the Province) on March 24, 2014. The purpose of Energy Marketing is to oversee the sale of energy from existing and future resource developments. Energy Marketing is a 100% owned subsidiary of Nalcor Energy (Nalcor).

Energy Marketing's head office is located in St. John's, Newfoundland and Labrador.

As operations did not begin until November 2014, no comparative information has been presented.

**2. SIGNIFICANT ACCOUNTING POLICIES**

**Statement of Compliance and Basis of Measurement**

These condensed interim financial statements have been prepared in accordance with International Accounting Standard (IAS) 34 Interim Financial Reporting and have been prepared using accounting policies consistent with those used in the preparation of the annual audited financial statements for the year ended December 31, 2014.

These condensed interim financial statements do not include all of the disclosures normally found in Energy Marketing's annual audited financial statements and should be read in conjunction with the annual audited financial statements.

These condensed interim financial statements have been prepared on a historical cost basis except for available for sale financial assets and derivative instruments which have been measured at fair value. The condensed interim financial statements are presented in Canadian dollars and all values rounded to the nearest thousand, except when otherwise noted.

Change in fair value of transmission congestion contracts	56	-	(55)	-
Other (income) expense	(1,211)	-	2,302	-

**7. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT**

**7.1 Fair Value**

The estimated fair values of financial instruments as at June 30, 2015 and December 31, 2014 are based on relevant market prices and information available at the time. Fair value estimates are based on valuation techniques which are significantly affected by the assumptions used including the amount and timing of future cash flows and discount rates reflecting various degrees of risk. As such, the fair value estimates below are not necessarily indicative of the amounts that Energy Marketing might receive or incur in actual market transactions.

As a significant number of Energy Marketing's assets and liabilities do not meet the definition of a financial instrument, the fair value estimates below do not reflect the fair value of Energy Marketing as a whole.

Establishing Fair Value

Financial instruments recorded at fair value are classified using a fair value hierarchy that reflects the nature of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

**NALCOR ENERGY MARKETING CORPORATION**  
**NOTES TO CONDENSED INTERIM FINANCIAL STATEMENTS (Unaudited)**

Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair value hierarchy requires the use of observable market inputs whenever such inputs exist. A financial instrument is classified to the lowest level of the hierarchy for which a significant input has been considered in measuring fair value. For assets and liabilities that are recognized at fair value on a recurring basis, Energy Marketing determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. There were no transfers between Level 1, 2 and 3 fair value measurement during the period ended June 30, 2015 and December 31, 2014.

	Level	Carrying Value	Fair Value	Carrying Value	Fair Value
		June 30, 2015		December 31, 2014	
<i>(thousands of Canadian dollars)</i>					
Financial assets					
Cash and cash equivalents	1	9,006	9,006	25	25
Trade and other receivables	1	1,550	1,550	16	16
Derivative assets	3	644	644	68	68
Financial liabilities					
Trade and other payables	1	13,721	13,721	1,174	1,174
Derivative liabilities	2	2,862	2,862	980	980

The fair value of cash and cash equivalents, trade and other receivables and trade and other payables approximate their carrying values due to their short-term maturity.

## 7.2 Risk Management

### Liquidity Risk

Energy Marketing is exposed to liquidity risk with respect to its contractual obligations and financial liabilities, including any derivative liabilities related to hedging activities. Liquidity risk management is aimed at ensuring cash is available to meet those obligations as they become due.

Short-term liquidity is mainly provided through cash and cash equivalents on hand, funds from operations and financial support from its parent, Nalcor. In October of 2014, Nalcor's Board of Directors approved an unconditional and irrevocable guarantee of Energy Marketing's \$20.0 million demand operating credit facility with its bank. This credit facility was made available in June 2015, and as at June 30, 2015 there were no amounts outstanding. The interim \$2.0 million facility provided by Nalcor was repaid in full with no balance outstanding as of June 30, 2015 (2014 - \$1.1 million).

### Market Risk

In December of 2014, Energy Marketing entered into a series of twelve monthly foreign exchange forward contracts with a notional value of \$41.8 million USD to hedge foreign exchange risk on a portion of planned USD electricity sales to the end of 2015. As the contracts have not been designated as hedged instruments, changes in fair value have been recorded in other (income) expense.

**NOTES TO CONDENSED INTERIM FINANCIAL STATEMENTS (Unaudited)**

---

**8. SUPPLEMENTARY CASH FLOW INFORMATION**

<i>For the period ended June 30 (thousands of Canadian dollars)</i>	<b>Three months ended</b>		<b>Six months ended</b>	
	<b>2015</b>	2014	<b>2015</b>	2014
Trade and other receivables	<b>(1,501)</b>	-	<b>(1,534)</b>	-
Prepayments	<b>102</b>	-	<b>202</b>	-
Trade and other payables	<b>11,369</b>	-	<b>12,547</b>	-
Changes in non-cash working capital balances	<b>9,970</b>	-	<b>11,215</b>	-
Interest paid	<b>3</b>	-	<b>4</b>	-

**9. RELATED PARTY TRANSACTIONS**

Energy Marketing enters into various transactions with its parent and other affiliates. These transactions occur within the normal course of operations and are measured at the exchange amount, which is the amount of consideration agreed to by the related parties. Related parties with which Energy Marketing transacts are as follows:

<u>Related Party</u>	<u>Relationship</u>
Nalcor	100% shareholder of Energy Marketing
Newfoundland and Labrador Hydro	100% owned subsidiary of Nalcor

**10. COMPARATIVE FIGURES**

Certain of the comparative figures have been reclassified to conform with presentation adopted during the current reporting period.
