1. DESCRIPTION OF BUSINESS

Labrador-Island Link Limited Partnership (the Partnership or LIL LP) was formed on July 31, 2012 under the laws of the Province of Newfoundland and Labrador. The Partnership's head office is located in St. John's, Newfoundland and Labrador.

The Partnership has two limited partners, Labrador-Island Link Holding Corporation (LIL Holdco), a wholly-owned subsidiary of Nalcor Energy (Nalcor), and Emera Newfoundland and Labrador Island Link Inc. (Emera NL). LIL Holdco holds 75 partnership units (Limited A units) and one Class C unit (Limited C unit) while Emera NL holds 25 partnership units (Limited B units). The Partnership is expected to terminate on December 31, 2081, unless terminated earlier or extended in accordance with the Labrador-Island Link Limited Partnership Agreement (the Partnership Agreement or LIL-LPA).

The Partnership was formed to carry on the business of designing, engineering, constructing, commissioning, owning, financing, operating and maintaining the assets and property constituting the Labrador-Island Link (the LIL). LIL LP has entered into the LIL Lease Agreement and the Transmission Funding Agreement with Labrador-Island Link Operating Corporation (LIL Opco) and Newfoundland and Labrador Hydro (Hydro), both of which are wholly-owned subsidiaries of Nalcor. These agreements effectively provide for a lease of the LIL assets to Hydro. LIL Opco will maintain and operate the LIL on behalf of the Partnership.

The general partner of the Partnership is Labrador-Island Link General Partner Corporation (the General Partner or LIL GP), a wholly-owned subsidiary of Nalcor. Although the General Partner holds legal title to the assets, the Partnership is the beneficial owner and assumes all risks and rewards of the assets.

These condensed consolidated interim financial statements have been prepared on a historical cost basis and are presented in Canadian dollars with all values rounded to the nearest thousand, except when otherwise noted.

3. RESTRICTED CASH

Restricted cash is held in accounts administered by a Collateral Agent for the sole purpose of funding construction costs related to the LIL. The Partnership draws funds from this account on a monthly basis in accordance with procedures set out in the LIL Project Finance Agreement (LIL PFA).

11. FINANCIAL INSTRUMENTS

Fair Value

The estimated fair values of financial instruments as at March 31, 2015 and December 31, 2014 are based on relevant market prices and information available at the time. Fair value estimates are based on valuation techniques which are significantly affected by the assumptions used including the amount and timing of future cash flows and discount rates reflecting various degrees of risk. As such, the fair value estimates below are not necessarily indicative of the amounts that LIL LP might receive or incur in actual market transactions.

As a significant number of LIL LP's assets and liabilities do not meet the definition of a financial instrument, the fair value estimates below do not reflect the fair value of LIL LP as a whole.

Establishing Fair Value

Financial instruments recorded at fair value are classified using a fair value hierarchy that reflects the nature of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair value hierarchy requires the use of observable market inputs whenever such inputs exist. A financial instrument is classified to the lowest level of the hierarchy for which a significant input has been considered in measuring fair value. For assets and liabilities that are recognized at fair value on a recurring basis, the Partnership determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. There were no transfers between Level 1, 2 and 3 fair value measurement during the period ended March 31, 2015 and the year ended December 31, 2014.
