Independent Auditor's Report

To the Directors of Labrador-Island Link General Partner Corporation

We have audited the accompanying financial statements of Labrador-Island Link General Partner Corporation which comprise the statement of financial position as at December 31, 2014 and the statements of comprehensive loss, changes in shareholder deficit and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Labrador-Island Link General Partner Corporation as at December 31, 2014 and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

LABRADOR - ISLAND LINK GENERAL PARTNER CORPORATION

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF BUSINESS

Labrador-Island Link General Partner Corporation (LIL GP or the Company) was incorporated under the laws of Newfoundland and Labrador on July 26, 2012, and is the general partner of the Labrador-Island Link Limited Partnership (LIL LP). The head office of LIL GP is located in St. John's, Newfoundland and Labrador.

LIL GP is a 100% owned subsidiary of Nalcor Energy (Nalcor).

The LIL LP was formed to carry on the business of designing, engineering, constructing, commissioning, owning, financing, operating and maintaining the assets and property constituting the Labrador-Island Link (the LIL). LIL LP has entered into the LIL Lease Agreement and the Transmission Funding Agreement with Labrador-Island Link Operating Corporation (LIL Opco) and Newfoundland and Labrador Hydro (Hydro), both of which are wholly-owned subsidiaries of Nalcor. These agreements effectively provide for a lease of the LIL assets to Hydro. LIL Opco will maintain and operate the LIL on behalf of the LIL LP.

The Company owns the only issued general partner unit of the LIL LP, thereby constituting it the LIL LP general partner. As the general partner, in accordance with the Limited Partnership Agreement relating to the LIL LP and applicable law, the LIL GP has the power to control and manage LIL LP. Labrador-Island Link Holding Corporation (LIL Holdco), a wholly-owned subsidiary of Nalcor, and Emera Newfoundland and Labrador Holdings Inc. (Emera NL) are the limited partners of LIL LP.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Statement of Compliance and Basis of Measurement

These annual audited financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). LIL GP has adopted accounting policies which are based on the IFRS applicable as at December 31, 2014, and includes individual IFRS, International Accounting Standards (IAS), and interpretations made by the IFRS Interpretations Committee (IFRIC) and the Standing Interpretations Committee (SIC).

These annual audited financial statements have been prepared on a historical cost basis. The annual audited financial statements are presented in Canadian dollars and all values rounded to the nearest thousands, except when otherwise noted.

These annual audited financial statements were approved by LIL GP's Board of Directors on March 5, 2015.

2.2 Basis of Consolidation

These financial statements include only the financial statements of LIL GP.

LIL GP includes the financial statements of investees (including structured entities) only when it has control as defined in IFRS 10 – Consolidated Financial Statements. In accordance with IFRS 10, control is achieved when LIL GP:

- has power over the relevant activities of the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect those returns.

Based on the criteria outlined in IFRS 10, LIL GP has determined that it does not control any investees and as such these financial statements include only the financial statements of LIL GP.

LABRADOR - ISLAND LINK GENERAL PARTNER CORPORATION
NOTES TO FINANCIAL STATEMENTS

2.3 Trade and Other Receivables

Trade and other receivables are classified as 'loans and receivables' and are measured at amortized cost using the effective interest method.

2.4 Revenue and Expense Recognition

Revenue is recognized on an accrual basis as earned when recovery is probable and revenue can be reliably measured. Expenses are recorded as incurred and consist of organizational, operational and other expenses associated with the operation of the Company.

2.5 Foreign Currencies

Transactions in currencies other than LIL GP's functional currency (foreign currencies) are recognized using the prior month end close rate. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the rates of exchange in effect at the period end date. Foreign exchange gains and losses resulting from fluctuations associated with borrowing costs are capitalized.

2.6 Income Taxes

The Company is exempt from paying income taxes under Section 149(1) (d.2) of the Income Tax Act.

2.7 Provisions

A provision is a liability of uncertain timing or amount. A provision is recognized if the Company has a present legal obligation or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably measured. Provisions are not recognized for future operating losses. The provision is measured at the present value of the best estimate of the expenditures expected to be required to settle the obligation using a discount rate that reflects current market assessments of the time value of money and the risks specific to the liability. Provisions are re-measured at each Statement of Financial Position date using the current discount rate.

2.8 Financial Instruments

Financial assets and financial liabilities are recognized in the Statement of Financial Position when the Company becomes a party to the contractual provisions of the instrument and are initially measured at fair value. Subsequent measurement is based on classification. Financial instruments are classified into the following specified categories: financial assets 'at fair value through profit or loss (FVTPL)', AFS financial assets, loans and receivables, held-to-maturity investments, financial liabilities 'at FVTPL', financial instruments used for hedging and other financial liabilities. The classification depends on the nature and purpose of the financial instruments and is determined at the time of initial recognition.

Classification of Financial Instruments

The Company has classified each of its financial instruments into the following categories: loans and receivables and other financial liabilities.

Trade and other receivables
Trade and other payables

Loans and receivables
Other financial liabilities

Financial Assets

(i) Effective Interest Method

The effective interest method is a method of calculating the amortized cost of a financial instrument and allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial instrument, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Income is recognized on an effective interest basis for financial instruments other than those financial assets classified as at FVTPL.

LABRADOR - ISLAND LINK GENERAL PARTNER CORPORATION
NOTES TO FINANCIAL STATEMENTS

(ii) Financial Assets at FVTPL

Financial assets are classified as at FVTPL when the financial asset is either held for trading or it is designated as at FVTPL.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial asset other than a financial asset held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives and *IAS 39 Financial Instruments: Recognition and Measurement* (IAS 39) permits the entire combined contract (asset or liability) to be designated as at FVTPL.

Financial assets at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognized in profit or loss.

(iii) Loans and Receivables

Trade receivables, loans, and other receivables with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Loans and receivables are measured at amortized cost using the effective interest method, less any impairment. Interest income is recognized by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

(iv) Held-to-Maturity Investments

Non-derivative financial assets with fixed or determinable payments and fixed maturity dates that the Company has the positive intent and ability to hold to maturity are classified as held-to-maturity investments. Held-to-maturity investments are measured at amortized cost using the effective interest method less any impairment, with interest revenue recognized on an effective yield basis.

(v) AFS Financial Assets

AFS financial assets are non-derivative financial assets that are designated as available for sale or are not classified in any of the previous categories. Gains and losses arising from changes in fair value are recognized in other comprehensive income and accumulated in the fair value reserve with the exception of impairment losses, interest calculated using the effective interest method, and foreign exchange gains and losses on monetary assets, which are recognized in profit or loss. Where the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously accumulated in the fair value reserve is reclassified to profit or loss.

LABRADOR - ISLAND LINK GENERAL PARTNER CORPORATION
NOTES TO FINANCIAL STATEMENTS

Financial Liabilities and Equity Instruments

(vi) Classification as Debt or Equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

(vii) Financial Liabilities at FVTPL

A financial liability may be classified as FVTPL if the contracted liability contains one or more embedded derivatives, and if the embedded derivative significantly modified the cash flows or if the embedded derivative is not closely related to the host liability. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising from remeasurement recognized in profit or loss.

(viii) Other Financial Liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs. Other financial liabilities are subsequently measured at amortized cost using the effective interest method, with interest expense recognized on an effective yield basis.

(ix) Derivative Instruments and Financial Instruments Used for Hedging

A derivative is a financial instrument or other contract whose value changes in response to a change in its underlying variable, requires little or no net investment and is settled at a future date. Derivatives are initially measured at fair value at the date the derivative contracts are entered into and are subsequently measured at their fair value at the end of each reporting period. The resulting gain or loss is recognized in profit or loss immediately unless the derivative is designated and effective as a hedging relationship.

2.9 Impairment of Financial Assets

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

Evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organization.

For certain categories of financial assets, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Company's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period, as well as observable changes in national or local economic conditions that correlate with defaults on receivables.

For financial assets carried at amortized cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account.

LABRADOR - ISLAND LINK GENERAL PARTNER CORPORATION
NOTES TO FINANCIAL STATEMENTS

When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to the allowance account. Changes in the carrying amount of the allowance account are recognized in profit or loss.

When an AFS financial asset is considered to be impaired, cumulative gains or losses previously recognized in other comprehensive income (loss) are reclassified to profit or loss in the period.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

2.10 Derecognition of Financial Instruments

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, its retained interest in the asset and an associated liability for amounts it may have to pay is recognized. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, it continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received. The Company derecognizes financial liabilities when, and only when, its obligations are discharged, cancelled or they expire.

2.11 Adoption and Amendments to IFRSs

In the current year, LIL GP has applied a number of amendments to IFRSs that are mandatorily effective for an accounting period that begins on or after January 1, 2014.

Amendments to IFRS 10, IFRS 12 and IAS 27 Investment Entities

LIL GP has applied the amendments to IFRS 10, IFRS 12 and IAS 27 Investment Entities for the first time in the current year. The amendments to IFRS 10 define an investment entity and require a reporting entity that meets the definition of an investment entity not to consolidate its subsidiaries but instead to measure its subsidiaries at fair value through profit or loss in its consolidated and separate financial statements.

To qualify as an investment entity, a reporting entity is required to:

- obtain funds from one or more investors for the purpose of providing them with investment management services;
- commit to its investor(s) that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both; and
- measure and evaluate performance of substantially all of its investments on a fair value basis.

Consequential amendments have been made to IFRS 12 and IAS 27 to introduce new disclosure requirements for investment entities.

LIL GP is not an investment entity (assessed based on the criteria set out in IFRS 10 as at January 1, 2014), the application of the amendments had no impact on the disclosures or the amounts recognized in LIL GP's financial statements.

Amendments to IAS 32 Offsetting Financial Assets and Financial Liabilities

LIL GP has applied the amendments to IAS 32 Offsetting Financial Assets and Financial Liabilities for the first time in the current year. The amendments to IAS 32 clarify the requirements relating to the offset of financial assets and financial liabilities. Specifically, the amendments clarify the meaning of 'currently has a legally enforceable right of set-off' and 'simultaneous realisation and settlement'.

LABRADOR - ISLAND LINK GENERAL PARTNER CORPORATION
NOTES TO FINANCIAL STATEMENTS

As LIL GP does not have any financial assets and financial liabilities that qualify for offset, the application of the amendments had no impact on the disclosures or on the amounts recognized in LIL GP's financial statements.

Amendments to IAS 36 Recoverable Amount Disclosures for Non-Financial Assets

LIL GP has applied the amendments to IAS 36 Recoverable Amount Disclosures for Non-Financial Assets for the first time in the current year. The amendments to IAS 36 remove the requirement to disclose the recoverable amount of a cash-generating unit (CGU) to which goodwill or other intangible assets with indefinite useful lives had been allocated when there has been no impairment or reversal of impairment of the related CGU. Furthermore, the amendments introduce additional disclosure requirements applicable to when the recoverable amount of an asset or a CGU is measured at fair value less costs of disposal. These new disclosures include the fair value hierarchy, key assumptions and valuation techniques used which are in line with the disclosure required by IFRS 13 Fair Value Measurements.

The application of these amendments had no material impact on the disclosures in LIL GP's financial statements.

Amendments to IAS 39 Novation of Derivatives and Continuation of Hedge Accounting

LIL GP has applied the amendments to IAS 39 Novation of Derivatives and Continuation of Hedge Accounting for the first time in the current year. The amendments to IAS 39 provide relief from the requirement to discontinue hedge accounting when a derivative designated as a hedging instrument is novated under certain circumstances. The amendments also clarify that any change to the fair value of the derivative designated as a hedging instrument arising from the novation should be included in the assessment and measurement of hedge effectiveness.

As LIL GP does not have any derivatives that are subject to novation, the application of these amendments had no impact on the disclosures or on the amounts recognized in LIL GP's financial statements.

3. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of these financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, revenues and expenses. Actual results may materially differ from these estimates. The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimate is reviewed if the revision affects only that period or future periods if the revision.

3.1 Use of Judgment

Management applies judgment when determining whether to consolidate structured entities in accordance with the criteria outlined in IFRS 10. Management has determined that the Company should not consolidate LIL LP.

4. FUTURE CHANGES IN ACCOUNTING POLICIES

LIL GP has not applied the following new and revised IFRSs that have been issued but are not yet effective:

IFRS 9	Financial Instruments ¹
IFRS 15	Revenue from Contracts with Customers ²

¹Effective for annual periods beginning on or after January 1, 2018, with earlier application permitted.

²Effective for annual periods beginning on or after January 1, 2017, with earlier application permitted.

4.1 IFRS 9 – Financial Instruments

IFRS 9 issued in November 2009 introduced new requirements for the classification and measurement of financial assets. IFRS 9 was subsequently amended in October 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition, and in November 2013 to include the new requirements for general hedge accounting. Another revised version of IFRS 9 was issued in July 2014 mainly to include:

- (a) impairment requirements for financial assets, and
- (b) limited amendments to the classification and measurement requirements by introducing a ‘fair value through other comprehensive income’ (FVTOCI) measurement category for certain simple debt instruments.

Key Requirements of IFRS 9:

- All recognized financial assets that are within the scope of IAS 39 Financial Instruments: Recognition and Measurement are required to be subsequently measured at amortized cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortized cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are measured at FVTOCI. All other debt investments and equity investments are measured at their fair value at the end of subsequent accounting periods. In addition, under IFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognized in profit or loss.
- With regard to the measurement of financial liabilities designated as at fair value through profit or loss, IFRS 9 requires that the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability’s credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value attributes to a financial liability’s credit risk are not subsequently reclassified to profit or loss. Under IAS 39, the entire amount of the change in the fair value of the financial liability designated as fair value through profit or loss is presented in profit or loss.
- In relation to the impairment of financial assets, IFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under IAS 39. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognized
- The new general hedge accounting requirements retain the three types of hedge accounting mechanisms currently available in IAS 39. Under IFRS 9, greater flexibility has been introduced to the types of transactions eligible for hedge accounting, specifically broadening the types of instruments that qualify for hedging instruments and the types of risk components of non-financial items that are eligible for hedge accounting. In addition, the effectiveness test has been overhauled and replaced with the principle of an ‘economic relationship’. Retrospective assessment of hedge effectiveness is also no longer required. Enhanced disclosure requirements about an entity’s risk management activities have also been introduced.

Management anticipates that the future application of IFRS 9 may have a material impact on amounts reported in respect of the Company’s financial assets and financial liabilities. However, it is not practicable to provide a reasonable estimate of the effect of IFRS 9 until the Company undertakes a detailed review.

LABRADOR - ISLAND LINK GENERAL PARTNER CORPORATION
NOTES TO FINANCIAL STATEMENTS

4.2 IFRS 15 Revenue from Contracts with Customers

In May 2014, IFRS 15 was issued and establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. IFRS 15 will supersede the current revenue recognition guidance including IAS 18 Revenue, IAS 11 Construction Contracts and the related interpretations when it becomes effective.

The core principle of IFRS 15 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Standard introduces a five-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer.
- Step 2: Identify the performance obligations in the contract.
- Step 3: Determine the transaction price.
- Step 4: Allocate the transaction price to the performance obligations in the contract.
- Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation.

Under IFRS 15, an entity recognizes revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in IFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by IFRS 15.

Management anticipates that the application of IFRS 15 in the future may have a material impact on the amounts reported and disclosures made in the Company's financial statements. However, it is not practicable to provide a reasonable estimate of the effect of IFRS 15 until Management performs a detailed review.

5. TRADE AND OTHER PAYABLES

The composition of trade and other payables is as follows:

<i>(thousands of Canadian dollars)</i>	2014	2013
Accrued trade payables	57	50
Payables due to related parties	48	20
	105	70

6. SHARE CAPITAL

The share capital of LIL GP as at December 31 is summarized below:

<i>(thousands of Canadian dollars)</i>	2014	2013
Common shares without nominal or par value		
Authorized - unlimited		
Issued and outstanding - 100	1	1

LABRADOR - ISLAND LINK GENERAL PARTNER CORPORATION
NOTES TO FINANCIAL STATEMENTS

7. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

7.1 Fair Value

The estimated fair values of financial instruments as at December 31, 2014 and December 31, 2013 are based on relevant market prices and information available at the time. Fair value estimates are based on valuation techniques which are significantly affected by the assumptions used including the amount and timing of future cash flows and discount rates reflecting various degrees of risk. As such, the fair value estimates below are not necessarily indicative of the amounts that LIL GP might receive or incur in actual market transactions.

As a significant number of LIL GP's assets and liabilities do not meet the definition of a financial instrument, the fair value estimates below do not reflect the fair value of LIL GP as a whole.

Establishing Fair Value

Financial instruments recorded at fair value are classified using a fair value hierarchy that reflects the nature of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair value hierarchy requires the use of observable market inputs whenever such inputs exist. A financial instrument is classified to the lowest level of the hierarchy for which a significant input has been considered in measuring fair value. For assets and liabilities that are recognized at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. There were no transfers between Level 1, 2 and 3 fair value measurement during the years ended December 31, 2013 and December 31, 2014.

As at December 31, 2014 and December 31, 2013, the Company did not have any level 2 or 3 financial instruments.

	Level	Carrying Value	Fair Value	Carrying Value	Fair Value
		2014		2013	
<i>(thousands of Canadian dollars)</i>					
Financial assets					
Trade and other receivables	1	1	1	1	1
Financial liabilities					
Trade and other payables	1	105	105	70	70

The fair value of trade and other receivables and trade and other payables approximates their carrying values due to their short-term maturity.

LABRADOR - ISLAND LINK GENERAL PARTNER CORPORATION
NOTES TO FINANCIAL STATEMENTS

7.2 Financial Risk Management

The Company is exposed to credit, liquidity and market risks through its operating, investing and financing activities.

(a) Credit Risk

The Company's expected future cash flows are exposed to credit risk through financing activities, based on the risk of non-performance by counterparties to financial instruments.

During the year ended December 31, 2014, the Company did not hold any financial assets with counterparties other than related parties.

(b) Liquidity Risk

The Company is exposed to liquidity risk with respect to its contractual obligations and financial liabilities. Short-term liquidity is provided through equity contributions. The construction of the LIL by LIL LP is funded entirely by financing obtained by LIL LP and contributions from the limited partners.

The following are the contractual maturities of the Company's financial liabilities, including principal and interest, as at December 31, 2014:

<i>(thousands of Canadian dollars)</i>	< 1 Year	1-3 Years	3-5 Years	> 5 Years	Total
Trade and other payables	105	-	-	-	105

(c) Market Risk

The Company is exposed to possible market price movements that could impact expected future cash flow and the carrying value of certain financial assets and liabilities.

Interest Rates

During the year ended December 31, 2014, the Company did not hold any financial assets or liabilities that were subject to interest rate risk.

Foreign Currency and Commodity Exposure

The Company does not hold any financial instrument whose value would vary due to changes in a commodity price or fluctuations in foreign currency exchange rates.

8. RELATED PARTY TRANSACTIONS

The Company enters into various transactions with its parent and other affiliates. These transactions occur in the normal course of operations and are measured at the exchange amount, which is the amount of consideration agreed to by the related parties. Related parties with which the Company transacts are as follows:

Related Party	Relationship
Nalcor Energy (Nalcor)	100% shareholder of LIL GP
LIL LP	Limited partnership between Nalcor and Emera NL.
Lower Churchill Management Corporation	100% owned subsidiary of Nalcor
LIL Holdco	100% owned subsidiary of Nalcor and limited partner of the LIL LP
Emera NL	Limited partner of LIL LP

LABRADOR - ISLAND LINK GENERAL PARTNER CORPORATION
NOTES TO FINANCIAL STATEMENTS

9. COMMITMENTS AND CONTINGENCIES

- (a) Under the terms of the Newfoundland and Labrador Development Agreement (NLDA), the Company has certain responsibilities and provisions of duty with which it must comply in its role as the general partner. Any failure of LIL GP to comply with the NLDA will result in Nalcor indemnifying Emera NL for any losses sustained.
- (b) LIL GP is subject to various legal proceedings and claims in the normal course of business. Although the outcome of such actions cannot be predicted with certainty, Management currently believes LIL GP's exposure to such claims and litigation, to the extent not covered by insurance policies or otherwise provided for is not expected to materially affect its financial position.

10. CAPITAL MANAGEMENT

The Company functions as the general partner of the LIL LP. Capital includes share capital net of deficit.
