

Nalcor Energy – Lower Churchill Project Reaches Out to Business Community During Expo Labrador 2010

June 17, 2010 - In coordination with Expo Labrador 2010, Nalcor Energy – Lower Churchill Project is inviting the local business community to schedule one-on-one meetings with a member of the Project procurement team. These meetings are part of Nalcor's continued commitment to ensuring communities have accurate, timely information.

"The Lower Churchill Project presents significant opportunities for the business community in Labrador and on the island," says Gilbert Bennett, Vice President of the Lower Churchill Project. "These one-on-one meetings will not only allow the procurement team to discuss goods and services requirements for the Lower Churchill Project, but will also give the business community an opportunity to present their company and its capabilities."

Meetings will take place on June 21-22 at the E.J. Broomfield Arena in Happy Valley – Goose Bay and appointments must be made in advance. Those interested should schedule an appointment by contacting the Lower Churchill Project Information Centre at 709.896.6790.

"The Labrador North Chamber of Commerce is committed to working with Nalcor to help ensure businesses are project-ready," said Brian Fowlow, Executive Director of the Labrador North Chamber of Commerce. "These sessions during Expo Labrador 2010 offer an excellent opportunity for the regional business community to connect with the Project procurement team."

Planning is underway for a series of similar meetings throughout Labrador and on the island for the fall of 2010. Nalcor will work with Regional Economic Development Boards and Chambers of Commerce to further connect with the business community.

Members of the business community are also encouraged to submit a Vendor Registration Questionnaire describing their company and can do so at nalcorenergy.com/lowerchurchillproject.
